

Aniboh Irikefe

Commissioned the 3DOF Helicopter simulator and DC Servo trainer experimental platform - Control Laboratory Proctor

Lagos, GU

-Email me on Indeed: <http://www.indeed.com/r/Aniboh-Irikefe/e9548663e3bd66fa>

Eclectic Student seeking to engage my unique inclinations in tasks that promote organizational effectiveness. Passionate about the Systems engineering paradigm with the zeal to expand capabilities in the domain.

Work Experience

Commissioned the 3DOF Helicopter simulator and DC Servo trainer experimental platform

Control Laboratory Proctor

September 2014 to Present

Sep 2014 - till Date

- Compiled and verified set of Experiments for the Laboratory Manual
- Commissioned the 3DOF Helicopter simulator and DC Servo trainer experimental platform
- Integrated a ubiquitous prototyping interface (arduino) with the 3DOF simulator

Team Coach

Departmental and Class Football Team

March 2014 to Present

- Selected promising players across levels.
- Formulated training tactics, objectives and schedules.
- Communicated team's strategy which resulted in our most successful outing since inception.

Team Lead CyberXchange Hackathon

November 2016 to November 2016

- Lead brainstorming session.
- Assigned roles to team members.
- Pitched on behalf of the team to Judges.

Education

BSc in View

University of Lagos - Lagos, GU

December 2013 to June 2018

Additional Information

SKILLS

Autodidact

Communication: Empathic Listener, Respectful, Confidence.

Software: Autodesk Inventor, Orcad, Microsoft word, PowerPoint, Linux, Any Logic Simulator, Simulink.

Programming: C/C++, C#, Matlab, Python.

Hardware: Arduino, Real-time 3DOF Helicopter simulator, Oscilloscope, DC Servo trainer.

Management: Scheduling and planning, Functional Allocation, Synchronization of Tasks.

Leadership: Visionary, Manager.
