A highly self-motivated Web Developer. Professionally driven with the ability to work under pressure on multiple concurrent projects and deliver quality work to deadlines. Able to analytically solve problems and keep abreast of current best practices. An effective team member with excellent technical and communicative skills, over 4 years of experience in frontend and backend web development. I can bring an enthusiastic approach to any working environment. In the last three years, I have grown valuable experience in software designs, office administration as well as relationship management presenting a positive personal image, and I'm also exploring my growing interest in feature writing. Given my lateral thinking prowess, I'm able to take on new skills as required.
