Lagos, GU

-Email me on Indeed: <http://www.indeed.com/r/Atobatele-Zikrulah/95d0c4d5ce7abecc>

SUMMARY A dedicated and efficient software developer with 4+years working experience who is highly skilled in front-end development, Angular, Node Js, HTML, CSS, Bootstrap, JavaScript, JavaFx , PimeNG and Angular Material design. I am also proficient in back-end development with Java and SpringBoot. Also skilled in MySQL database. I am capable of assimilating fast, passionate about technology, problem solving and research development. I have successfully built and deploy API(s) alongside with my partners. I am a resource person who is structured in both software development and data analysis using SPSS

Work Experience

Backend Developer

SWIPETECH LIMITED - Lagos, GU

February 2021 to February 2021

Worked with JAVA, MySQL, JavaScript, jQuery, Jasper Report, Mvn Spring -boot, Git.

I worked with other team with the implementation of Master Card and I also worked with the implementation to produce merchant solution (Swipe pay – Buy now pay later).

I worked with other developers in maintaining already built solutions used in the fintech industry.

Full-Stack Developer

FORDSOFT LIMITED - ABEOKUTA

August 2018 to December 2020

Worked with JAVA, MySQL, Mvn Spring-boot, JavaScript, Typescript, jQuery, Jasper Report, HTML and CSS, Bootstrap, JavaFx, Node js, Prime Ng, Git.

I worked with other developers to build and maintain applications from scratch and also in analyzing the project requirements in programming sequence by analyzing requirements. Also involved with the building of some application modules like

Team lend Application module, Transaction electronic record Module, Accounting Module, Store Application module.

TEAM LEAD, GENERAL SECRETARY|COMMUNITY DEVELOPMENT SERVICE - ABEOKUTA

July 2019 to June 2020

Responsibilities/Achievements

- Developed a revised short-term strategy as part of team, to decide on which functional areas to focus social developmental efforts achieving over 70% of projected outcomes.
- Led a team of corps members to manage and plan strategic events organised by the sustainable development goals group.
- Responsible for maintaining and monitoring project plans, project schedules, project scope and budgets.
- Liaised with the relevant agencies on behalf of the group on matters relating fund raising and supports.

Full-Stack Developer

FORDSOFT LIMITED - ABEOKUTA

December 2017 to July 2018

Worked with JavaScript, HTML and CSS, Bootstrap, JAVA, MySQL, JavaScript, jQuery, Jasper Report, JavaFx, Git.

Responsible for building APIs to be consumed by frontend developers. Improving codebase to perform better based on client's feedback and performance reports. I also participated in the decision-making of the stack to be used on projects to be worked on and also design the report template.

Developed some important modules for our platform; Electronic Health record Module.

Designed the front end for client projects. Collaborating with other front-end engineers to deliver functional applications in time.

Responsibilities/Achievements

- Gather and document Software Requirements Specifications (SRS)
- Designing and developing user interfaces using Angular

9,10/11 JSF and Javafx best practices.

- Confirms project requirements by reviewing program objective, input data, and output requirements with analyst, supervisor, and client.
- Organize project requirements in programming sequence by analyzing requirements; preparing a work flow chart and diagram using knowledge of computer capabilities, subject matter, programming language, and logic.
- Encodes project requirements by converting work flow information into computer language.
- Adapting interface for modern internet applications using the latest front-end technologies.
- Writing JavaScript, TypeScript, Nodejs, CSS, and HTML.
- Designing of user interface using Angular Materials and

PrimeNg

- Developing product analysis tasks.
- Making complex technical and design decisions for various projects.
- Developing application codes and unit tests in Angular, Java Technologies, and Rest Web Services.
- Conducting performance tests.
- Consulting with the design team.
- Ensuring high performance of applications and providing support.
- Developing Application Programmable Interface
- Integrate unit testing with the develop API(s)
- Analyze, Design, Development and Administration of database
- Integration of api test tools with the application
- Documentation of application processes and flow(Text format, Swagger)
- System study
- Presentation of developed applications to the clients
- Configure, setting up new environment and deployment of application
- Development of task scheduling and Micro service application
- Rendering support service to existing application
- Coordinate other personnel for the realization of organization goals and objectives

- Documentation of challenges and logic flows on JIRA
- Management of applications on bitbucket
- Management of Issues presents on JIRA by other personnel
- Review and bugging of logics written by other application developers within the organization
- Research into programming problems and provides solution

IT SKILLS Proficient in the use of modern technology including all major advance software applications such as:

- Microsoft Words • SPSS
- Excel Spreadsheet

TECH STACK HTML (4 years), CSS (4 years), Bootstrap (4 years), MySQL (3 years), JavaScript (3 years), TypeScript(1 year), JAVA (4 years), JavaFx (3 years), jQuery (2 years), Angular js (2 years), PrimeNg (2 years) MVN Spring-boot (4 years), Git (3 years), Jasper Report (3 years).

Education

INTERNATIONAL CENTRE
2019

BACHELOR OF TECHNOLOGY in ANIMAL NUTRITION AND BIOTECHNOLOGY

LADOKE AKINTOLA UNIVERSITY OF TECHNOLOGY
2012 to 2018

CERTIFICATE OF PARTICIPATION

FEDERAL UNIVERSITY OF AGRICULTURE
2018

Skills

- INTEREST Learning
- Reading
- Information Technology
- Data exploration
- Researching and Entrepreneurship.
