

Brandon Travis

Tamuning, GU

-Email me on Indeed: <http://www.indeed.com/r/Brandon-Travis/fd073d7e5bc3bef4>

Willing to relocate to: Seattle, WA - Bellevue, WA - Remote

Work Experience

Software Engineering Intern

University of Guam - Mangilao, GU

July 2020 to May 2022

- As a web development intern I started creating version three of UOG Publications.
 - o UOG Publications is an online database of documents that are inputted and made searchable.
 - o Redesigned the application from the ground up, improving code readability and adding extended functionality to the application.
- Implemented all technologies that were used in the project, and integrated them all together. Developed the configuration for docker ensuring all components work together as expected

Web Development Intern

Conquer Money - New York, NY

October 2020 to December 2020

- Implemented frontend error handling for authentication
- Implemented key features that were essential functionality for the application
 - o Implemented individual posts and comments viewing
 - o Implemented CRUD functionality for various views such as profiles.

Development Intern

Greenbridge Computing - Seattle, WA

November 2017 to May 2018

- Building and managing fullstack web applications.
 - o Integrating google APIs such as Google Maps, for core application functionality.
 - o Focus on UX/UI for best consumer experience.
- Understanding business development from a startup perspective.

Education

Bachelor of Science in Computer Science

University of Guam - Mangilao, GU

May 2022
