August 2014 to September 2014

- Distribution Officer (D.O.)
- Registration Officer (R.O.I)
- Responsibilities - Accreditation of Voters
- Conducting Voters Exercise
- Registration of Voters
- Data Management
- Data Collection
- Collation

Award and Affiliation

- Best Writer of the Year FUTA 2013
- Member of the National Association of Mining Engineers
- Participated in the Workshop Organized for Engineers by Engineering Society.
- Certificate in Communication Skills.

During My Internship At Napims

Nigeria National Petroleum Corporation

May 2013 to November 2013

Department - Gas Division Investment Management

- Taught how to manage investment between JV companies and NAPIMS
- If the project is suitable for NAPIMS to invest.
- To Maximize Petroleum Profit Tax (PPT) and guarantee a higher margin (Rate of Return) on Investment through efficient cost monitoring. Reduction mechanism.

Project Management

- Reviewed Bonga project SNEPCO Contract WNM NAPIMS, OML118
- Reviewed the escravos project (EGTL) a joint venture with SASOL and CHEVRON
- Project of the existing onshore Bonny River Terminal for fractionation of the liquids into commercial projects.

Date Management

- Data Call for all JV's which is done every month.
- Taught how to use sharing of ratio of each JV Companies.

Itakpe Ore-steel at Kogi

- Went for inspection at Itakpe Ore steel in my 300L in FUTA

During My Internship

Chevron

May 2012 to August 2012

Working as a mining - Engineer

- Taught how to prepare drilling work schedule for the workers.
- Completion of the reports based on the daily drilling operations.
- Went on the site monitoring daily drilling operation.
- Taught how to evaluate new drilling equipment and procedures.
- Implementation of the new technologies to reduce cost and increase drilling efficiency.
- Solved the problems of drilling operation.

Training at Baker Hughes on Advancing Reservoir Performance

- Drilling and evaluation using mag trak.
- Sound trak Acoustic logging while drilling
- Managing Problems of fluid behavior and production chemistry.

Education

Bachelor of Engineering in Mining Engineering

Federal University of Technology Akure

2014

School Certificate in Examination

Summit International High School

2006 to 2008

Isolog College Ojodu - Lagos, GU

2003 to 2005

Certificate

Isolog Primary School

2002

Additional Information

Skill Highlights

- Piping and simulation software
- Public speaking
- Knowledge in reservoir engineering
- Auto CAD
- MATLAB
- Complete underground mine projection software
- Geologic and surface mine modeling
- Plant design suite
- Piping engineering software
- HSSE (Health Safety, Security and Environment)
